

# **CIGRE WG C4.603 – Analytical Techniques and Tools for Power Balancing Assessments**

## **WG Composition:**

- **Kjetil Uhlen (Convener)**
- **12 members from 8 countries (approximately 50% of members from industry - mainly transmission system operators - and 50% from university/R&D institutes)**

## **WG Timeline:**

- **Start Date: August 2008**
- **Expected Date for Submitting Final Report to SC Chairman: End 2014**

## **Highlights of Recent Activity:**

- **Meeting in Vancouver, Canada 21<sup>st</sup> July 2013 (at the IEEE PES General Meeting 2013)**
  - **With 12 participants from 7 countries**

# **CIGRE WG C4.603 – Analytical Techniques and Tools for Power Balancing Assessments**

## **Future Activity:**

- **Next meeting: Zurich, 11 September 2013**
- **Another meeting in spring 2014 (time and place not yet decided)**
- **Plan to arrange a workshop summer 2014 to discuss final conclusions and recommendations from the working group.**

## **Other Items:**

- **This WG was planned to finish in 2011. However, since 2010 there has been practically no activity. The work was restarted this year with a firm goal to finish and report by the end of 2014.**
